PROFILE

Pragmatic front-end developer focused on building fast, accessible UIs. Comfortable with React + Vite, modern CSS, and clean component patterns. Quick to learn, collaborative, and hands-on with performance, accessibility, and developer experience. Eager to ship user-facing features end-to-end and contribute to team outcomes.

SAMPLE PROJECTS:

- YouTube Mini Player** — SPA mini-player with background audio, playlists, and hotkeys [React, Vite, Taiwind, API]
- FoodCase** — Food-delivery platform: orders, Stripe, email notifications, label generation [React, Taiwind, Stripe, MySQL, CSRF, PHP]
- TaxiRent** — Car rental site: fleet catalog, pricing, booking with validation [React, Vite, SCSS, Responsive].

WORK EXPERIENCE

Web Developer - Krakow, Poland

2024 - 2025

- Built order flow: confirmation, payment(Stripe Checkout), and automated email notifications.
- Implemented dynamic label/sticker generation from database data and user preferences.
- Supported CSRF protection and safer form handling.
- Designed mobile-first, cross-browser layouts.
- Shipped responsive UI with interactive states and clear error handling.
- Collaborated in a small team, reviewed code, and iterated quickly from feedback

Electrician

2018 - 2024

Electrical engineering officer

- Maintenance and troubleshooting of automated ship control systems (PLC) and monitoring (SCADA/HMI).
- Prepared checklist and wiring documentation; collaborated with cross-functional teams with a strong focus on safety and reliability.

EDUCATION

Specialist Diploma in Electrical Engineering

2014-2018

Exploitation of ship's automated systems
Admiral Makarov National University of Shipbuilding

Full-Stack / Front-End & Self-Learning

2023-2024

GoIT Academy
